Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance:

The claimed invention is directed to a data recording and reproducing apparatus. The independent claims 1, 5, and 7 identify the feature of "the controller for simultaneously storing the input data into the input buffer and transferring the output data from the output buffer, in parallel with writing from the input buffer to the recording device or reading from the recording device to the output buffer, wherein each of the input buffer, and the output buffer has a first memory area and a second memory area, and $t_1 + t_2 > T_1$ and $t_1 + t_2 > T_2$ are satisfied where t_1 is a time required for writing data into said recording device the amount of which is sufficient to fill the first or second memory area of the input buffer, T_1 is a time required for filling the first or second memory area of the input buffer with data, t_2 is a time required for reading out data from the recording device the amount of which is sufficient for fill the first or second memory area of the output buffer, and T_2 is a time required for completely outputting the data filled in the first or second memory area of the output buffer". And furthermore, the independent claim 13 identifies the feature of "the controller for simultaneously storing the input data into the input buffer and transferring the output data from the output buffer, in parallel with writing from the input buffer to the recording device or reading from the recording device to the output buffer, wherein the operations of writing to and reading from the recording device are performed by a single read/write head using data supplied from and to the respective input and output buffers". The closest prior art, Sata

et al discloses a conventional recording/reproducing apparatus, either singularly or in combination fails to anticipate or render the above underlined limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
